Join a Team That Powers Communities

At High West Energy, we're more than an electric cooperative—we're a team committed to delivering safe, reliable service while improving the lives of the members and communities we serve.

We're looking for a safety-focused, hardworking Lineman to help build, maintain, and restore the electric system that powers our communities. If you enjoy working outdoors, solving problems, and being part of a team that responds when members need us most, we'd love to hear from you.

What You'll Do

Live by our Core Values

- **Friendly** – We will be friendly by maintaining a positive attitude, treating each other with dignity, and communicating honestly and respectfully.
- **Innovative** – We will foster a culture of innovation by valuing the opinions of other and encouraging progressive ideas.
- **Hard Working** – We will work together to achieve our common goals by being conscientious, taking responsibility for our results, and upholding our commitments.
- **Integrity** – We will, every day, be models of integrity, striving to be dependable to keep our promises to earn the trust of those we serve.

Key Responsibilities

- Support and communicate the Cooperative's mission, goals, and strategic initiatives.
- Provide exceptional customer service to members, contractors, and fellow employees.
- Construct, maintain, and repair overhead and underground electric distribution and transmission facilities.
- Install poles, anchors, transformers, conductors, underground cable, pad-mounted equipment, and related electrical infrastructure.

- Respond to service outages and work to restore power safely and efficiently.
- Perform switching, troubleshooting, and maintenance activities on energized and de-energized electrical systems.
- Provide excellent service to members through service installations, disconnects, reconnects, meter-related work, and outage response.
- Read and interpret staking sheets, work orders, and construction plans.
- Inspect electrical facilities and identify maintenance needs to support system reliability.
- Operate and maintain vehicles, line trucks, digger derricks, aerial equipment, and other tools used in line construction and maintenance.
- Complete required documentation and comply with Cooperative policies, procedures, and regulatory requirements.
- Participate in emergency response efforts, storm restoration, and an on-call rotation schedule.
- Work safely at all times while promoting a strong safety culture and looking out for fellow employees and the public.
- Perform additional duties and special projects as assigned.

What Success Looks Like

The ideal candidate is:

- Takes pride in performing quality work safely and efficiently.
- Enjoy working outdoors in a variety of weather conditions.
- Works well independently and as part of a team.
- Demonstrates strong problem-solving and troubleshooting skills.
- Communicate professionally with members and coworkers.
- Is dependable, adaptable, and willing to respond during emergencies.
- Maintains a strong commitment to safety and continuous learning.
- Is willing to travel for training, storm restoration, and professional development opportunities.

Qualifications

Required

- High school diploma or GED equivalent is required.
- A journeyman certification is required.
- Valid Class A CDL prior to beginning employment.
- Ability to maintain a valid driver's license and comply with all vehicle operation requirements.
- Ability to live within 25 miles of the assigned home base.
- Ability to participate in an on-call rotation and work extended hours during outages and emergencies

- Ability to maintain confidentiality and exercise sound judgment

Work Environment

This position involves both indoor and outdoor work and requires working in a variety of weather and environmental conditions.

The role may include:

- Working at heights from poles and aerial devices
- Exposure to extreme temperatures, wind, precipitation, and other outdoor conditions
- Operating vehicles, line equipment, and power tools
- Working near energized electrical equipment
- Travel for training, storm restoration, and emergency response efforts
- Extended hours, nights, weekends, holidays, and on-call assignments as needed

Because High West Energy provides critical infrastructure services, flexibility during emergencies and severe weather events is essential.

Physical Requirements

- Ability to stand, walk, bend, climb, kneel, and perform physically demanding work throughout the day
- Ability to lift and carry up to 50 pounds unassisted
- Ability to work from poles, aerial devices, and other elevated work locations
- Ability to wear and properly use personal protective equipment
- Ability to safely perform manual labor requiring dexterity, strength, and coordination
- Reasonable accommodations may be made for qualified individuals to perform essential job functions

Safety Commitment

Safety is a principal value at High West Energy. All employees are expected to:

- Follow Cooperative safety policies and procedures
- Participate in required safety meetings and training
- Comply with applicable OSHA, DOT, NESC, PSC, and FMCSA regulations
- Take responsibility for their own safety and the safety of others

- Promote a culture of accountability and continuous safety improvement

Tools & Technology

You'll work with a variety of technologies and equipment, including:

- Bucket trucks, digger derricks, trenchers, backhoes, loaders, and other utility construction equipment
- Climbing gear, fall protection equipment, hydraulic tools, and specialized lineman tools
- Two-way communication systems and mobile technology
- Metering, testing, troubleshooting, and underground locating equipment
- Various vehicles and equipment used in construction, maintenance, outage response, and storm restoration

Why Join High West Energy?

- Make a direct impact by helping provide reliable power to our communities.
- Build a rewarding career with hands-on work and continuous learning opportunities.
- Join a collaborative team committed to safety, service, and excellence.
- Participate in a structured apprenticeship and professional development program.
- Work for a stable, member-owned organization with a strong commitment to its employees and communities.

If you're ready for a challenging and rewarding career helping keep the lights on for our members, we encourage you to apply.

We are an Equal Opportunity Employer, Females/Minority/Veterans/Disabled/Sexual Orientation/Gender Identity.
